## LETTER OF INTENTION

*For the promotion of international cooperation between*

*The Faculty of Physics & Engineering of the University of Strasbourg  
(France)*

&

*The Faculty of Mathematics, Physics and Computer Science of the Maria  
Curie-Sklodowska University (Lublin, Poland)*

Abdelmjid NOURREDDINE  
Directeur

We hereby confirm our interest to promote and to improve the pedagogical and research cooperation between our faculties. To begin with we will make use of the existing Erasmus + agreement between our Universities.

Affaire suivie par :  
Náthali FERRAZ BOIREAU  
Tél : + 33 3 68 85 06 71  
[ferrazboireau@unistra.fr](mailto:ferrazboireau@unistra.fr)

According to this program two students and one teacher/researcher may be supported for their mobility. This may start immediately and it should be considered as an introduction to further extensions, *i.e.* for the elaboration of an International Cooperation Agreement (ICA) between our Universities. This could include the partnership between our faculties. Such an ICA could/should be enlarged to other fields. This has to be defined during the forthcoming 2015/2016 year.

Best personal regards,

Prof. Abdel-Mjid Nourreddine  
Dean of the Faculty of Physics and Engineering  
University of Strasbourg

UFR Physique et Ingénierie  
3 rue de l'Université  
67084 Strasbourg Cedex  
France
